

Week 3: Remote, Virtual, & Real Flight (07/29/2019 to 08/02/2019)

Represented by Camp Team: The Droners

Students focus on technologies used to capture media that include aeronautics, ballistics, manual, and assisted flight technologies using rocket & drone technology combined with video and photography. They learn the basics of drone flight and video capture for media content development. Their skills at media capture, production, and presentation will be complete, and the emphasis shifts to using their skills to capture those activities throughout rest of the Academy. In the following week they participate in a rocket launch competition.
