

**Week 1: Society, Culture, & Communication (07/15/2019 to 07/19/2019 )**

*Represented by Camp Team: The Architects*

This is the first week of the camp, and for good reason. This is the week in which the students create the platforms upon which everything else they do for the duration of the camp is displayed. The focus of the week is society, culture and communication and they will work with ideas that help create open mindedness and culture. Among the many related learning objectives, by the end of the week, each student will have participated in the development of a web-based platform in which their experiences each week will be recorded for the duration of the Academy.

**Week 3: Remote, Virtual, & Real Flight (07/29/2019 to 08/02/2019)**

*Represented by Camp Team: The Droners*

Students focus on technologies used to capture media that include aeronautics, ballistics, manual, and assisted flight technologies using rocket & drone technology combined with video and photography. They learn the basics of drone flight and video capture for media content development. Their skills at media capture, production, and presentation will be complete, and the emphasis shifts to using their skills to capture those activities throughout rest of the Academy. In the following week they participate in a rocket launch competition.

**Week 4: Community Building (08/05/2019 to 08/09/2019)**

*Represented by Camp Team: Global Minds*

In Week 4, the focus of the classes turns to social, cultural, geographical, and international awareness learning. Camp participants will look closely at those things that make people believe and behave differently from one another in terms of language and culture, and equally at those things that make us similar in terms of popular culture, international fashion, and common human endeavour. They will look at how geography and climate affect people differently, and how natural environments impact lifestyle, thought, and behavior.

### Week 5: Obon Week Okutama Outdoor Camp (08/12/2019 to 08/16/2019)

Represented by Camp Team: *The Wild Ones*

Week 5 happens during the traditional annual summer holiday called “Obon.” During this week, all of the campers and teachers take a break from the city and move the operations of the camp to a special Cross location in the mountains about one hour to the west of Tokyo. There they spend the week involved in learning about the Okutama area. They meet prominent local figures involved in woodcraft, agriculture, & social development, and they experience the outdoors, including scientific & ecological experiences. They also get to swim in the clear blue waters of the Arakawa River, and enjoy barbecues almost every night!

**Week 6: Eco-Environmental Studies (08/19/2019 to 08/23/2019)**

*Represented by Camp House Team: The Ekokids*

This part of the Cross Summer Academy adventure ranges from learning about renewable energy sources to learning about agriculture and farming, to learning about natural environments and ecosystems. The camp participants will create their own eco-systems, energy sources, and environmental conservation projects. They will look at how societies use resources, and how they deal with the waste products using efforts and technologies such as land reclamation, waste to energy processes, recycling, and reprocessing.
